**Guide to choose  
your shredder**

MADE IN ITALY

## WHY CHOOSING A SHREDDER

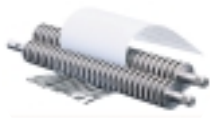

Protects sensitive information against identity theft.  
Reduces the useless document high volume

Your information is vulnerable. Protecting sensitive information is your best defence against identity theft. Identity theft happens when someone steals your personal information and poses as you in order to make financial transactions or carry out illegal activities in your name. The thief could ruin your credit, damage your reputation, commit fraud or other crimes in your name. It's crucial to take every precaution to safeguard all the important information at hand, from names and phone numbers to social security numbers, credit card numbers, bank account information, credit reports, financial records, addresses, employees' and customers' identities. Companies are held responsible for protecting information. The best way to dispose of documents that contain your personal information is to shred them. Shredding sensitive information before throwing it out is the key to preventing it from falling into the wrong hands. Shredders maximize your security ensuring that the data cannot be reassembled. Thieves can't steal what they can't read!

*This guide helps you to choose the most suitable shredder meeting your shredding requirements*

**First choice is the type of cut most suitable to the shredding needs:**

### **Straight Cut**

- Higher number of sheets shredded in one pass
- Higher speed
- No lubrication of cutting knives
- Shredded paper can be re-cycled as packaging material

*The narrower is the width of the stripe, the higher is the Security Level*

### **Cross Cut or Confetti Cut**

- Higher security Level of shredded paper
- Higher bulk reduction of shredded paper increases capacity of waste containers

*The smaller is the shred's size, the higher is the Security Level and the bulk reduction of the shredded material.*

## WHY CHOOSING A **KOBRA**® SHREDDER

### **SUPER POTENTIAL POWER SYSTEM**

Special carbon hardened steel gears and metal chain drive systems ensure operational reliability and reresistance to stress and mis-use

### **CONTINUOUS DUTY MOTORS**

24 hour continuous duty motor for long shredding operations

### **"ENERGY SMART" SYSTEM: ZERO CONSUMPTION IN STAND-BY MODE**

Save Energy, protect the Environment

- Saves up to Euro 20,00\* of electrical energy a year
- Reduces by 65 kgs the carbon dioxide (CO2) that would have been introduced into the atmosphere a year

*\* Electrical costs vary in each country*

### **AUTOMATIC REVERSE SYSTEM**

100% jam proof

### **SEPARATION OF SHREDDED PAPER FROM PLASTIC SHREDS**

A special removable double waste bin, with no need of plastic bags, allows the separation of shredded paper from plastic shreds of CDs, DVDs, Floppy Disks and credit-cards

Waste bag volume	liters	130	130	160
Continuous duty motor		●	●	●
Dimensions (WxDxH)	cm	58x35x85	58x35x85	60x48x93

"State of the Art" electronic includes  
the "ENERGY SMART" software  
and shredder functions control

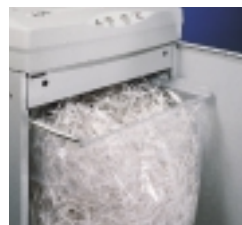

## STRAIGHT-CUT SHREDDERS

Kobra 400

STRAIGHT-CUT   Kobra 400 S5

Throat width	mm	400
Shred size	mm	5,8
Sheet capacity (A4 70gr. m <sup>2</sup> )		60/62
Security Level DIN 32757		2
Waste bag volume	liters	160
Continuous duty motor		●
Dimensioni (LxPxH)	cm	60x48x93

Waste bag easy to remove  
(160 liters)

Carbon hardened cutting knives  
unaffected by staples and clips

## CROSS-CUT SHREDDERS

Kobra 400

CROSS-CUT    Kobra 400 C2 Kobra 400 C4

Throat width	mm	400	400
Shred size	mm	1,9x15	3,9x40
Sheet capacity (A4 70gr. m <sup>2</sup> )		29/31	44/48
Security Level DIN 32757		4	3
Waste bag volume	liters	160	160
Continuous duty motor		●	●
Dimensioni (WxDxH)	cm	60x48x93	60x48x93

Adjustable computer forms top shelf  
(Space Saving Design). Integrated sliding  
flap makes Floppy Disks, CDs, DVDs  
and Credit Cards shredding easy

LARGE OFFICES  
MEDIUM - HIGH QUANTITY  
OF PAPER

## CENTRALIZED CROSS-CUT SHREDDER

Kobra 400 WB

CROSS-CUT   Kobra 400 WB

Throat width	mm	400
Shred size	mm	3,9 x 40
Sheet capacity (A4 70gr. m <sup>2</sup> )		44/48
Security Level DIN 32757		3
Waste bag volume	liters	160
Continuous duty motor		●
Dimensions (WxDxH)	cm	60x48x163

Automatic mechanical feeding system with revolving flaps

Kobra 400 WB is ideally designed to shred documents and paper coming from the office waste baskets and for computer print-outs shredding. Just insert the paper into the dedicated throat or just empty the waste basket into the large hopper and Kobra 400 WB will shred everything into small chips for great security and bulk reduction of the shredded material.

LARGE OFFICES  
CENTRALIZED USE  
WASTE BASKETS

## HIGH VOLUME INDUSTRIAL SHREDDER

Kobra Cyclone

Rear window for easy checking of waste bag level

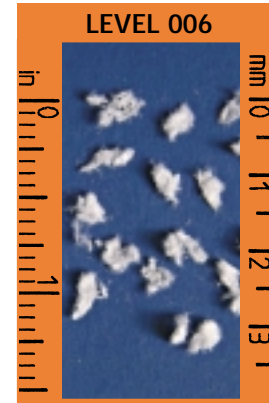

Kobra Cyclone

Throat width (WxH)	mm	325 x 220
Shred size	mm	see Cyclone specs
Sheet capacity (A4 70gr. m <sup>2</sup> )		500
Security Level		see Cyclone specs
Waste bag volume	liters	400
Continuous duty motor		●
Dimensions (WxDxH)	cm	80x212x210

Kobra Cyclone can shred 500 sheets of paper at a time and cardboards, carton boxes, Floppy Disks, CDs, DVDs, credit cards, plastic bottles and aluminium cans

## AVAILABLE SECURITY LEVELS

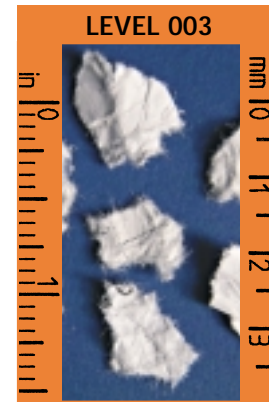

High Security shredding for very classified documents. Military and Government use. Similar to Level 6 Security Level DIN 32757. Maximum bulk reduction of shredded material. Shredding output 70-80 Kg. (155-180 lbs) per hour (Theoretical Output)

High Security, suitable for Embassies, Military and Government offices. Similar to Level 5 Security Level DIN 32757. Very high bulk reduction of shredded material. Shredding output 100-120 Kg. (225-265 lbs) per hour (Theoretical Output)

Security Level suitable for destruction of classified documents. Similar to Level 4 Security Level DIN 32757. Increased bulk reduction of shredded material. Shredding output 200-230 Kg. (445-500 lbs) per hour (Theoretical Output)

This Security Level is suggested for most common commercial shredding jobs. Similar to Level 3 Security Level DIN 32757. Combines an excellent degree of security, bulk reduction of shredded material and shredding output. Shredding output 300-320 Kg. (670-715 lbs) per hour (Theoretical Output)

Low degree of bulk reduction of shredded paper. Shredding output 400-420 Kg. (900-940 lbs) per hour (Theoretical Output)
