

Kobra's new ShredinaBin[®]

Secure shredding into a wheelie bin

The Kobra ShredinaBin[®] provides an alternative way to safely destroy your company or Government Department's confidential and private information. You can now shred directly into a standard 240 litre wheelie bin and dispose of the waste safely.

When compared to the lockable wheelie bin, it is a **safer** and **lower cost** solution, and can be manufactured to suit your office environment.

- Replace costly lockable wheelie bins
- Largest 240 litre capacity
- Increased on-site security
- Attractive furniture finish, choice of veneer to suit office environment
- Smaller 120 litre option available on request
- Durable steel drive gears
- Environmentally and OHS friendly
- Safety stop when door is opened
- Patented "Energy Smart" system uses zero power in stand by mode
- Can be tailored with shredder to suit security requirement
